bids upon the Saltair reservoir propo-sition yesterday, but nothing was done in the matter. Mr. Langford said that it might be several days before any-thing is done. It is understood that there will be probably five parties in the competition for the work. There seems to be some doubt wheth-er the original intention will be carried out of building a track around the rim of the basin. This, it is discovered, could not be done without changing the point of entrance. To unload the pas-sengers where the platform will meet sengers where the platform will meet the rim would mean quite a walk to the pavilion. To overcome this diffi-culty and use the rim instead of switching the cars for the return trip, would make it necessary to land the passen-gers on one side of the pavilion and have them embark on the other.

This arrangement would save very little time, but it might be more convenient for the company. The anxiety of the company now is to get started on the basin. As the matter of expense is not one entering into the question of laying the extra tracks, it is probable that this work will be carried out according to the original plans. Additional inlet gates will be added to provide for free entrance of water if the lake depth increases, and other changes are under consideration. minor

MAY COME TO SALT LAKE.

No Longer Much Doubt That the Northwestern Will Extend.

New York, Nov. 12.—A circular letter has been issued by the stockholders of the Chicago & Northwestern Railway company calling for a special meeting Feb. 10, at which it is proposed to increase the capital stock of the company by authorizing an issue the company by authorizing an issue of additional common shares so that the entire capital stock shall be \$100,-000,000, and consider the question of acquiring the franchises and property of the Fremont, Elkhorn & Missouri Valley Railroad company.

The foregoing dispatch is the strongest assurance yet given out regarding the plans of the Northwestern to reach the coast over its own lines. Atten-tion was recently called to the fact that the movements of the Chicago & Northwestern were of a nature to justify the suspicion that the road will extend. Subsequently it was announced that the company had made a general survey over the route which it laid out between Casper, Wyo, and St. Anthony, Ida., when the Union Pacific called it off.

The idea that the road would be extended has been questioned by high officials here who have watched the movements of the company. It is well known, however, that the agreement with the St. Paul recently is a matter to which the Northwestern has not be-

The Goulds have always been believed to be financially interested in the project, and when George J. Gould was in the city recently he referred to Mr. Moffat in a manner which indicated a very friendly concern in the road and its promoter.

Denver, Nov. 12.—The Times says: The visit of H. D. Moffat, W. G. Evans and Rodney Curtis to New York is un-doubtedly for the purpose of making arrangements to extend the Denver, Northwestern & Pacific railroad from Salt Lake City to San Francisco, and to have the work of construction pro-ceed at the same time the line east of Salt Lake is being built. This was confirmed by Sylvester Smith, presi-dent of the Colorado-Utah Construction

Judge Cornish, who was accompanied on the trip by Mrs. Cornish, enjoyed the visit very much and found the climate on the coast delightful. Winter tourists are pouring into Los Angeles, and the hotels are taking on their usual winter activity. It is predicted that both the railroads and the hotels will enjoy the biggest season in years. Judge and Mrs. Cornish will resume and Mrs. Cornish will result their trip east today, and expect to make a short stop at Denver on the

Correspondence of the Associated Press. Honolulu, Nov. 5, (via San Fran-isco, Nov. 12.)—The elections yesterday resulted in a victory for the Republican ticket. Prince Jonah Kuhiobe Kalanianaole, the Republican nominee, s elected as delegate to congress, and the legislature will be Republican in both houses, in spite of five Home Rule senators holding over from the last legislature, to three Republicans. The result of the election, it is thought by Republicans, will be the

It is also regarded as disposing largely of the race issue and the issue of royalism in Hawaiian politics, for the campaign of the defeated candidate, Delegate to Congress W. R. A lady of St. Paul, Minn., never drank anything but cold water until

she was married, and then commenced to drink coffee. She says: "About one year after our marriage my husband began to complain of a distress in his stomach and

plain of a distress in his stomach and I had such dizzy spells after each meal that we had to see a doctor. We drank coffee three times a day, but did not imagine that coffee was causling all this distress. The doctor said both our livers were out of order, gave us some medicine and told us that we ought to break off drinking coffee. We stopped it for a while, but missed the hot drink so much we went back to coffee. In five years' time I lost a company to the confee of the first present a chamily residence, 357 South First West street, and 30 clock yesterday afternoon. In five years' time I lost a com-plexion that was faultless and gained a very bad stomach, and my husband's tomach was ruined. He thought he had cancer of the stomach, or some-hing worse, but we had formed the habit of coffee drinking, and, like drunkards, found it no easy matter to break off, although we knew it was killing both of us.

"We kept a grocery store at the time, and a lady called one day and asked for Postum Food Coffee, saying, 'My children like it; will not drink anything else, and I know it is good for them because they prove heavy travels with cause they never have trouble with their stomachs.' This interested me and I told her about my bad stomach. She told me how to make Postum, and

we began its use ourselves.

"After drinking it three times a day for a week, I felt much better, and my husband declared that he felt like a new man. We have drunk Postum for four years and have never had one particle of stomach trouble since, and I have lost that sallow, yellow color I so much disliked, and the whites of my eyes are as clear as ever again. I know it is because we left off drinking coffee and drank Postum. Must Come.

COMMITTED TO ASYLUM. Frank Ivie of Salina, Examined Before Judge McCarty.

fore Judge McCarty.

Richfield, Nov. 12.—Frank Ivie of Salina was yesterday examined before Judge McCarty as to his sanity, and he was ordered committed to the asylum. It developed that he has the idea that he is the owner of vast tracts of land and has a kind of kingly right, but that the people are trying to take it away from him. During the examination he went up to the judge's bench and, placing a copy of some senator's speech on the Philippine question before the judge, declared that established his claims. On other matters he appeared quite rational, but it was feared that as he seemed at times inclined, he would demand redress for his imaginary wrongs and commit some act of violence. It is believed his derangement is due to excessive clearette smoking, and that with proper treatment he may recover. He has a wife and children.

There has been more or less of a storm in this county during the past week, and while there has been no heavy falls of rain, there has been more or less snow falling at times, until there is quite a deposit on the mountains. Last night the first fall reached the valley. It is still cloudy and storming on the mountains, and the outlook is beginning to look encouraging for next season.

The officers are looking for R. T. Reeves, a brakeman on the Rio Grande Tintic branch, who is charged with assaulting Conductor Fenton at Springville this morning. The particulars are not known here, but the two men had some disagreement as the train was getting ready to go to Tintic this morning, which ended in Mr. Fenton being knocked down with a pick handle by Reeves. It was at first thought Fenton was dangerously wounded on the head, but later investigation discloses that the wound is not so serious as at first supposed. Both men have families in Springville. It is thought Reeves may have left the state, going east on one of the through freight trains. Miss Carrie Bridewell will appear at the Provo tabernacle tomorrow (Thursday) evening. An informal reception will be given in Miss Bridewell's honor by the club women of Provo at the K. of P. hall, Knight block, from 2 to 4 p. m. tomorrow, to which all interested in music are invited.
